EDUCATION

University of Engineering & Management (UEM) <i>Master of Computer Applications (MCA)</i>	Kolkata, India August 2025 – July 2027
NSHM College of Management and Technology <i>Bachelor of Computer Application, Computer Science</i>	Kolkata, India August 2022 – July 2025

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL
Databases: MySQL, PostgreSQL, MongoDB
Technologies & Tools: Git, Linux, Data Structures, Algorithms, Object-Oriented Programming
Core Competencies: Data Analysis, Problem Solving, Software Development, Database Management
Soft Skills: Team Collaboration, Quick Learning, Attention to Detail, Communication

PROJECTS

Online Bookstore <i>PHP, MySQL, HTML, CSS, JavaScript</i>	2024
- Developed a full-stack e-commerce web application for online book sales using PHP and MySQL - Implemented user authentication, shopping cart functionality, and secure payment gateway integration - Designed responsive user interface with HTML and CSS ensuring seamless experience across devices - Created admin panel for inventory management, order tracking, and customer relationship management	
Cosmic Heat Game <i>Python, Pygame, Object-Oriented Programming</i>	2024
- Built an interactive arcade-style game from scratch using pure Python and object-oriented design principles - Implemented game physics, collision detection, and scoring system for engaging gameplay experience - Designed multiple levels with increasing difficulty and integrated sound effects for enhanced user engagement - Optimized game performance ensuring smooth frame rates and responsive controls	
Minecraft Clone Game <i>Python, OpenGL, 3D Graphics</i>	2024
- Created a 3D voxel-based game inspired by Minecraft using Python and graphics libraries - Implemented procedural terrain generation algorithms for dynamic world creation - Developed block placement and destruction mechanics with real-time rendering optimization	
Personal Portfolio Website <i>HTML, CSS, JavaScript, Responsive Design</i>	2023
- Designed and developed a professional portfolio website showcasing projects and technical skills - Implemented responsive design principles ensuring optimal viewing experience on all device sizes - Integrated interactive elements and smooth animations to enhance user engagement and navigation	
QR Code Generator & Calculator <i>Python, GUI Development, Tkinter</i>	2023
- Developed a QR code generator application using Python enabling users to create custom QR codes - Built a feature-rich calculator application with graphical user interface using Tkinter library - Implemented error handling and input validation for robust and user-friendly applications	

CERTIFICATIONS

Ask Questions to Make Data-Driven Decisions	Coursera/Google
Cyber Security Fundamentals	Industry Certification
Introduction to Cloud Native, DevOps, Agile, and NoSQL	Coursera
AWS Data Engineering	AWS

PROFESSIONAL SUMMARY

Recent Computer Applications graduate with strong foundation in software development, data analysis, and database management. Quick learner with proven ability to collaborate effectively in team environments and adapt to new technologies. Passionate about leveraging technical skills to solve complex problems and drive innovation. Seeking opportunities to contribute to cutting-edge projects at Google.
